I was confined to my bed about four weeks, at one time being told by the doctor that I could not get well. When I could leave my bed I was in such a ner-yous state that I could not sleep at night. I would get up and sit on a chair until completely tired out and then go back to bed and sleep from exhaustion. "I had been under the doctor's care

for six weeks when my sister, Mrs. Loveland, of Everett, persuaded me to try Dr. Williams' Pink Pills for Pale I began taking the pills with the result that I soon experienced relief. One night soon after taking them I lay awake only a short time and the next night I rested well. From that time I slept well every night and soon got well and strong. "OLD MAN" LIBBY'S DEER.

Remarkable Story of Killing Told by Blind Guitte.

"Old Man" Libby is one of the best known guide camp keepers in the state of Maine, and for years has been totally blind. Four years ago he carried into Bangor the carcass of a deer, and had it taken to the office of Fish and Game Commissioner Carpenter. Libby expressed the wish any one troubled with constipation, inthat the venison be given to the Banger hospital.

Carpenter wanted to know who killed the deer, and was much surwhen Libby claimed to have been the destroyer.

"Why, Libby," he asked, "how did you, a blind man manage to kill this deer?

"Wai, you see," drawled Libby, "I was standing outs'de my tent yesterday morning, ax in hand, just going to chop a leetle wood, when I felt this durned critter rushing onto me. thought 'twas a b'ar, so I hauled off and soaked him."

The commissioner always has a grin on tap when telling this story. for he has doubts as to who killed the

CHINA THE LAND OF DUCKS.

Staple Article of Food for Residents of Celestial Empire.

There are more ducks in China than in all the rest of the world. China, literally, is white with these birds, and day and night the country resounds with their metallic and scornful voices

Children herā ducks on every road, on every pond, on every farm, on every lake, on every river. There is no back yard without its duck house. There is no boat, little or big, without its duck quarters.

Even in the cities of China ducks abound. They dodge between the coolies' legs. They flit squawking out of the way of the horses. Their indignant quack will not unseldom drown the roar of urban commerce.

All over the land there are great duck hatching establishments, many of them of a capacity huge enough to produce 50,000 young ducks every

The Chinese duck is extremely tender and delicate—the best tame duck for eating in the world. Duck among the Chinese is the staple delicacy. It is salted and smoked like ham or beef, and duck eggs are eaten as chicken eggs are in America.

COFFEE IMPORTERS

Publish a Book About Coffee.

There has been much discussion as to Coffee and Postum lately, so much in fact that some of the coffee importers and roasters have taken to type to promote the sale of their wares and check if possible the rapid growth of the use of Postum Food Coffee.

In the coffee importers' book & chapter is headed "Coffee as a Medicine," and advocates its use as such.

Here is an admission of the truth, most important to all interested.

Every physician knows, and every thoughtful person should know, that habitual use of any "medicine" of the drug-stimulant type of coffee or whisky quickly causes irritation of the tissues and organs stimulated and finally sets up disease in the great majority of cases if persisted in. It may show in any one of the many organs of the body and in the great majority of cases can be directly traced to coffee in a most unmistakable way by leaving off the active irritant-coffee-and using Postum Food Coffee for a matter of ten days. If the result is relief from nervous trouble, dyspepsia, bowel complaint, heart failure, weak eyes, or any other malady set up by a poisoned nervous system, you have your answer with the accuracy of a demonstration in mathematics.

"There's a reason" for Postum.
